Professional Experience

I have had my own computer consulting company for the last 17 years and have dealt with both set-up for hardware and software plus business training. I have worked in the academic environment in college, the business environment and with 5 professional training corporations. I have also converted 26 companies to computerized systems, helping also with purchasing both the necessary software and hardware. I have expertise in MS Access, SQL, Windows 2000/3, IIS, Apache, Java/J2EE, C#, XML, XML/XSL, ASP/ASP.NET and VB/VB.NET. Clients include Casio, CBS, Gov. of Cyprus, DOD, DOE, and NASA for database implementation, middle tier development, front end deployment and programming.

Global SPAN, Inc
945 Bowman Dr, Reno NV 89510
771-0687 My own business

Do computer consulting on hardware/software. Help clients decide on proper equipment for their needs, installed or build systems and components and trained clients for their use. Some proprietary development work also. Also, do programming in VB/VB.NET, Java and C# with XML and XSL and help setup web servers and firewalls.

Education

I attended the University of Missouri at Columbia. My undergraduate work was in mechanical engineering and graduate work was in nuclear engineering. Was on the Engineering Dean's list.
